

## Information Sheet

### Braysafe

#### Description

The "Braysafe" is a secure re-sealable bag. The zipper closure opens to a tamper evident pocket which adds to the security of the contents. This way the product cannot be contaminated or interfered with in any way once the bag is filled and sealed. Bags are made in LDPE and can be clear or printed in up to 10 colours. A variety of conversion features such as the euro-slot, air perforations, punched handle, tear-line perforation, Brayseal Tape and sequential numbers can be offered with this product.
